

WIOA Digital Literacy RFP
Questions and Answers
February 20, 2019

1. **Does the grant allow funding of participant stipends and progression/completion incentives?**

We had not anticipated any participant stipends or incentives being a part of the grant. Higher levels of case management would be required within the grant for those services to be allowable. The MWDB anticipated the grant awarded to close the digital skills gap for a broad cross section of the Midlands service area to include customers inside and outside of the SC Works Centers.

2. **Is the use of JobReadyU online curriculum sufficient to meet the grant requirements for the various competency areas?**

The Job Ready U curriculum will meet the minimum requirement for the grant. Bidders are encouraged to use the curriculum as a baseline of competencies and may include additional programs or methods to close the skill gap as appropriate. Additionally, the bidder may propose alternative and/or additional software to be utilized.
