Anticipated Start Date: 9/28/26		Anticipated End Date: 2027	

SECTION 2. <i>Eligibility Criteria</i>		
Please thoroughly answer all questions. Attach additional sheets if necessary.		
Do business circumstances point to probable layoffs?	☐ YES	☒ NO
If yes, please describe the business's circumstances. Click or tap here to enter text.		
The requested training will:		
☒ Increase employee skills	☐ Save jobs within our business (How many? Click or tap here to enter text.)	
☒ Address changing skill requirements	☒ Result in a credential(s)	
☐ Result in wage/pay increases	☐ Help prevent business relocation or closure	

SECTION 2. Eligibility Criteria

Please thoroughly answer all questions. Attach additional sheets if necessary.

Explain how the training will improve employee skills, resulting in a more competitive workforce and/or improve overall business circumstances.

The Physical/Chemical Wastewater Operator Certification training will strengthen employees' skills in wastewater treatment processes, regulatory compliance, chemical handling, system monitoring, troubleshooting, and environmental safety. These enhanced skills will enable employees to operate and maintain the facility's wastewater treatment system more effectively, identify potential issues earlier, respond appropriately to operational changes, and help prevent environmental or production-related disruptions.

The ISO 14001 Lead Auditor Training will equip employees with the skills necessary to plan, conduct, lead, and document Environmental Management System audits in accordance with ISO 14001 standards. Employees will be better prepared to evaluate environmental processes, identify compliance gaps and improvement opportunities, recommend corrective actions, and support the company's environmental and continuous-improvement objectives.

Together, these training programs will create a more knowledgeable, versatile, and competitive workforce by expanding the environmental and technical capabilities of current employees. Developing this expertise internally will reduce reliance on outside resources, improve regulatory preparedness, strengthen environmental compliance, and support continuous plant operations. The training will also help reduce the risk of environmental violations, production interruptions, and associated costs while improving operational efficiency, employee retention, environmental stewardship, and Pure Power Technologies' overall competitiveness.

List the credentials expected to result from the IWT program.

Click or tap here to enter text.

WWRO Certification

ISO 14001 Lead Auditor Certification

Is the business committed to retaining employees?

☒ YES

☐ NO

SECTION 3. Training Project Information

Up to six (6) training programs may be requested on each application. Training descriptions for each program requested must be attached to the application.
